eduroam (Education Roaming)
for MacOS 10.7 and higher

eduroam enables you to connect to the Internet from your own device by using your MPIfG e-mail address and password at all eduroam participating institutions.

A list of all participating institutions can be found on the website: https://www.eduroam.de

For a successful configuration please follow the instructions described in the manual:

1. Please go to the top menu bar and choose eduroam in the list of available WLAN connections.

2. To log on please use your Institute's ID with an attached @mpifg.de and your Password.

3. In the following window click on Continue and, if necessary, on Accept.

If a tick appears on the left side at eduroam, the connection was successful.

Enjoy using!
